

UNDERWOOD GOES SLOW

He Will Wait to Hear Experts on the Defense

FOR REASONABLE PREPAREDNESS

He Believes in Learning the Lessons of the War

Washington, Oct. 30.—Oscar W. Underwood, senator-elect from Alabama, who is here for the opening of Congress, said yesterday in discussing the question of national defense that he would wait until the army and navy experts themselves had reached their conclusions and presented them to Congress before expressing his views on the subject.

The new senator declared that he favored a reasonable national defense, but said: "I am approaching the subject in such a way that I shall be able to take the opinions of the experts largely into consideration in shaping a final opinion." He added that Congress would now be in a better position in dealing with the subject to profit by lessons from the European war.

Mr. Underwood, who, as chairman of the House ways and means committee, framed the tariff law which there is talk of revising to meet revenue requirements, declined to discuss the proposal. He said that it would be manifestly out of place for him to do so inasmuch as he was leader in the House when the law was enacted and is not now a member of that body. Mr. Underwood will pay his respects to President Wilson in a few days and probably also will discuss the prospective legislative programme.

GEN. JOFFRE CALLS ON GEN. KITCHENER

They Meet at War Office and Leave Together—The Prince of Wales Also Arrives in London.

London, Oct. 30.—General Joffre, the French commander-in-chief, came to London yesterday. He went to the war office on his arrival. Shortly afterwards he and Earl Kitchener, the war secretary, left together in an automobile.

The Prince of Wales arrived at Buckingham palace yesterday afternoon, on leave from France. The prince was in close attendance on his father during the king's inspection of his troops at the front. It is believed the prince has returned for the purpose of reassuring Queen Mary as to the king's condition. His presence here is taken as confirmation of the statement that the accident was not serious.

NEW MAXIM AERIAL BOMB

Inventor Has Fuse That Will Increase Effectiveness.

Washington, Oct. 30.—The secret of a new fuse for aerial torpedoes which will make this instrument of warfare much more deadly, was disclosed yesterday to Secretary Daniels by Hudson Maxim, member of the naval advisory board.

After their conference both Mr. Daniels and Mr. Maxim admitted that the improvement upon which Mr. Maxim has been working for several weeks will vastly increase the torpedo's effectiveness. But beyond saying the improvement in the fuse had to do with its timing, neither would discuss the principles of the discovery.

JAPAN NOT TO SIGN A SEPARATE PEACE

Mikado Becomes a Party To Agreement With Rest of the Allies Against Individual Termination of War.

London, Oct. 30.—Japan has become a party to the agreement not to conclude a separate peace.

PORCH CLIMBERS GET \$7,000.

Jewelry Taken from Two Homes in Port Chester.

Greenwich, Conn., Oct. 30.—The porch climbers who robbed the homes of W. Howard Buchanan and Louis C. Wertz in Port Chester Wednesday evening made a good haul. The Buchanan robbery netted about \$5,000 in jewelry, while \$2,000 worth of gems were taken from the Wertz home.

PURE WATER SUPPLY.

A successful artesian well has just been drilled for Mr. Frank R. Martin on top of the hill at his farm in Marshfield, near Plainfield, Vt. The well was completed at a depth of 82 feet, all of which was drilled in the solid ledge comprising 2 ft. of top ground. Water stands within 7 ft. of top of ground, and when Mr. Martin lowers his supply pipe in, the water will run without any pump into his buildings, giving him an abundant supply of pure, sparkling water. Mr. Martin says he is well pleased and will gladly recommend the Ray State Artesian Well Co., Inc. of Warren, and Woodville, N. H., to anyone in need of a good water supply. Mr. Martin says he feels he would be doing his neighbors a good service by telling them about the benefits that he knows that he is going to derive from this successful artesian well. He has been so bothered in the past by hauling water that now he can forget it and give his whole time to attending to other business.

The steam drilling machine will remain on Mr. Martin's farm for several days to give others interested in a better and lower yielding water supply a chance to come in for an artesian well. Lower rates will be given before the drilling outfit is brought away. Address: Ray State Artesian Well Co., Inc., at Warren, N. H., or Woodville, N. H.—adv.

PURE RICH BLOOD PREVENTS DISEASE

Bad blood, that is, blood that is impure or impoverished, thin and pale, is responsible for more ailments than anything else.

It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles.

It is responsible for run-down conditions, and is the most common cause of disease.

Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing scrofula and other humors, increasing the red blood corpuscles, and building up the whole system. Get it to-day.—Adv.

RATS COST NEW ORLEANS MORE THAN \$4,500,000

To Prevent Plague 74,526 Buildings Have Been Made Rat-Proof; 7,000 Buildings Demolished.

New Orleans, Oct. 30.—More than \$4,500,000 has been expended in the last year in an effort to make New Orleans rat-proof and prevent the reappearance of the bubonic plague, according to an announcement made here yesterday by Dr. R. H. Creel of the United States public health service, in charge of the work. Seventy-four thousand, five hundred and twenty-six buildings have been made rat-proof; about seven thousand not considered worth repairing by the owners have been demolished, and work is progressing on 39,301 others. Approximately 37,000 buildings still are to be made rat-proof. Citizens of New Orleans have expended approximately \$3,861,000 on their property, while the federal, state and city governments have spent more than \$600,000 in the campaign.

APPENDICITIS OPERATION UPON J. P. MORGAN

It is Performed at His Country Home at Glen Cove, L. I.—Financier is Reported Comfortable.

New York, Oct. 30.—J. P. Morgan underwent an operation for appendicitis at his country home at Glen Cove, L. I. yesterday. The operation was reported successful and Mr. Morgan is resting comfortably.

Mr. Morgan was at his office Wednesday, but was indisposed Thursday and remained at his Glen Cove home. His physicians discovered he was suffering from a mild attack of appendicitis. In order to guard against a recurrence the physicians decided upon an operation. The operation was performed at noon yesterday by Drs. Markoe, Lyl and Smith who reported it to have been entirely successful in every way and that Mr. Morgan is now resting comfortably. Mr. Morgan's general condition is so excellent that his prompt recovery is looked for.

The facts concerning the operation upon Mr. Morgan were contained in a statement given out yesterday at the office of J. P. Morgan & Co. So far as could be learned yesterday's operation is in no way the result of the shooting of Mr. Morgan by Frank Holt at Glen Cove on July 3 last. Mr. Morgan has been regularly at his office since early August. He has been very active in business during the last few months, especially in connection with the Anglo-French loan.

MEXICANS KILL TEXAS RANCHER

Took Charles Boone From a Northwestern Train and Shot Him Without Trial.

El Paso, Tex., Oct. 30.—Charles Boone, an American cattleman of El Paso, was taken from a Mexican Northwestern train at Guzman, Chihuahua, and shot to death. Boone's partner, James Welch, witnessed the murder and arrived here with the story early yesterday.

Welch stated that Col. Hernandez, head of the Villa garrison at Guzman, had ordered by a firing squad without trial and presumably in retaliation for the execution of Carranza by the United States government.

Hernandez was said to have searched the train for other Americans, threatening to kill any more he found. Welch said he escaped by hiding in the locomotive with the American engineers. They confirmed Welch's story.

Washington, Oct. 29.—Negotiations are under way to-day to protect Americans at Douglas, Ariz., threatened by the impending battle between Villistas and the Carristas at Agua Prieta. The state and war departments are endeavoring to induce both sides to move farther away from the American boundary.

Consul Carothers was at Douglas yesterday with authority to treat unofficially with Villa and, if possible, induce him to avoid firing across the American border. Carothers was assigned with Villa until Carranza's recognition and has great personal influence with him.

Gen. Funston is endeavoring to secure consent to re-establish a neutral zone which will protect Douglas.

Two regiments of American infantry and cavalry detachments to re-enforce the Douglas garrison arrived there yesterday.

Brownsville, Tex., Oct. 30.—The 26th infantry, ordered from Dallas to the Brownsville district last week, received its initiation into border warfare yesterday, when a small detachment was attacked twice by Mexicans between midnight and daylight. One American soldier was wounded. The Mexicans, although caught between two fires on the second attack, escaped without casualties.

ESKIMOS KILL FOUR MEN.

Murder Two Catholic Priests and Two Prospectors.

Winipeg, Man., Oct. 30.—Northwest mounted police yesterday reported the murder of two Catholic priests and two prospectors in the far North by Eskimos.

The crimes were not given, but the police said they believed the Eskimos were of the same tribe that killed Radford, the explorer.

MELLEN IS ASTONISHED

He Merely Identifies Signatures to the Documents Shown Him

"PARALYZED" AT THEIR CONTENTS

Wonders That He Lived So Long Near Them

New York, Oct. 30.—At the outset of yesterday's session of the trial of the eleven former directors of the New York, New Haven & Hartford railroad, under the Sherman anti-trust law, Charles S. Mellen obtained permission to make a statement in regard to the documentary testimony introduced by the government Thursday relative to the political activities entered into in behalf of the road by John M. Hall, former vice president. This was in the form of a letter written to Hall. "I want it to be known," Mr. Mellen said, "that I merely identified the signatures to these letters. I had not the remotest idea of their existence until yesterday. I was paralyzed to discover that I had been for ten years within reaching distance of these letters press copy books and was not blown up. I had no connection with these matters, direct or indirect."

"And did you ever hear," asked R. V. Lindabury, of counsel for the defense, "of their coming to the knowledge of any director?"

"I never had occasion to refer to them nor do I know of any officer or director that did," Mr. Mellen replied when objection by the government had been overruled.

The alleged activities of Hall had to do with preventing trolley competition with the New Haven through action by the legislatures of Connecticut and Rhode Island. Mr. Mellen, who had been on the stand for seven days, was then temporarily excused, the defense announcing that they would not cross examine him at this time. He was asked, however, by the attorneys for the government to remain in the court room for possible identification of other documentary evidence.

The government then proceeded to read more letters from Hall, taken from a copy book previously admitted in evidence. In one, dated April 23, 1897, Hall wrote to Judge William F. Holmes, a Hartford attorney, asking him to pose a proposition by the Connecticut Western railroad to issue bonds. Hall wanted Holmes to appear before a committee of the legislature where the application of the road was to be heard. "I wish you'd undertake to appear against this scheme of building," the letter read. "I desire to beat this bill if possible. Please confer with Robbins and concoct the best scheme possible." Hall advised that Holmes get local witnesses to testify against the desirability of the bond issue which was to provide for the construction of a competitive branch line. "I don't desire to show our hand openly," the letter added.

In May, 1897, Hall wrote to Henry C. Robinson of Hartford, then a director of the New Haven, who according to letters introduced Thursday, "had charge of matters around the capital." The letter revealed that Holmes's efforts had apparently been fruitless. Hall suggested means whereby the construction of the line could nevertheless be defeated. He thought an appeal in the courts could be taken "which would be useful in delaying proceedings." He pointed out that it might be finally taken to the supreme court. The missive pointed out that the proposed line would connect with the Boston & Maine and "divert business from our line." Hall advised against the appearance of Edward D. Robbins in the matter on behalf of the New Haven. "It does not seem wise or prudent to have a director appear in this matter," he wrote.

BRIAND AND CABINET TO MEET CHAMBER

President Poincaré Accepted Rene Viviani's Resignation Before Noon Yesterday.

Paris, Oct. 30.—President Poincaré accepted Rene Viviani's resignation as premier before noon yesterday.

The entire cabinet went out with the premier.

M. Briand has been charged with the formation of a new cabinet, and it was expected that the new ministry would be ready to meet the Chamber yesterday afternoon.

It seems certain that among the new ministers will be Jules Cambon and Gen. Gallieni.

M. Viviani is also on the Briand list as minister of justice.

SCENT A PLOT.

Seattle Officials See One in Big Fire on Fire.

Seattle, Wash., Oct. 30.—Police and fire department officials conducted a thorough investigation yesterday in the origin of the \$600,000 fire which Thursday night destroyed a pier used by the Blue Funnel line of British steamers for shipments of provisions and supplies for England, Russia and Japan.

The fact that the fire started in a pile of rotten stored with other high inflammable merchandise in the same manner as two small blazes last Tuesday caused officials to believe that the fire probably was set by someone who objected to the shipment of munitions of war for the Russian armies.

NEARLY ALL THE ELEVENS HAVE BEEN SCORED ON

And Big Varsity Football Teams Have Several Times Succumbed to the Representatives of Smaller Colleges.

New York, Oct. 30.—The present football season offers a remarkable example of the all-round improvement made by the average college eleven in playing strength and gridiron strategy. A decade ago it was an extraordinary event when the minor 'varsity team scored upon its big university rival. To-day the eleven which can show a clean slate at the season's half-way mark is a rarity. The radical changes made in the rules during the past few years is responsible, to some extent, for this increase in scoring power, but the fact remains that the smaller college combination is no longer unfamiliar with the full possibilities of football.

In a list of more than one hundred institutions less than a dozen have gone through the season to date without being scored upon and when this number is restricted to those colleges which year in and year out make a high class and consistent football showing, the number can be counted upon the fingers of one hand. In the East and Middle West all but three have opponents capable of crossing their goal line or goal bar. The select trio with clean slates is composed of Vanderbilt, Colgate and Washington and Lee. Wisconsin and Syracuse have escaped with but one field goal registered against them, but the others are far from being so fortunate.

Among the elevens which have tasted the bitterness of defeat are Yale, Harvard, Pennsylvania, Michigan, Dartmouth, Virginia, Army, Navy, Brown, Syracuse and Rutgers. A peculiar angle of the situation is that the group of undefeated teams includes many representing colleges which were seldom heard from in the football of a few years ago. Among these teams would be found the conquerors of the big 'varsity elevens which until recently ran rough-shod over the little fellows in the so-called practice games, preliminary to the championship contests.

A careful study of the records of ten years ago will show that at this period of the season the leading university teams of the East and Middle West were, as a rule, unscathed upon and had run up totals that ranged all the way from one hundred to two hundred points. At the mid-season mark of 1905 Pennsylvania and Cornell were the only big elevens which had been scored upon. Five years later the progress of the minor college team was shown by occasional scoring against their big rivals, with a rare defeat as a promise of greater reverses to come.

While the gridiron leaders are still to be found among those colleges which have been making football history for many years, their margin of superiority is being cut down each season. The top point scores are no longer restricted to a few big eastern and western universities as was the case five or ten years ago. Vanderbilt leads to-day with Wisconsin and Colgate close at the heels of the southern powers, while Harvard, Yale, Princeton, Pennsylvania, Army, Navy, Chicago and other institutions with long and famous gridiron history are under or just over the hundred point mark.

The following tabulation shows the number of games played, won and lost up to Saturday, Oct. 23, together with the points scored by and against the more successful elevens of the season to date:

College.	Played	Won	Lost	Points.	Opponents' Points.
Vanderbilt	4	4	0	264	0
Wisconsin	4	4	0	216	3
Colgate	4	4	0	208	0
Michigan Aggies	4	4	0	190	12
Rutgers	4	3	1	170	17
Franklin & Marshall	5	4	1	153	17
Illinois	4	4	0	150	19
Minnesota	4	4	0	145	16
Cornell	5	3	0	144	13
Pittsburg	4	4	0	135	19
Dartmouth	5	4	1	134	37
Michigan	5	4	1	116	83
Virginia	5	4	1	113	16
Penn. State	5	0	0	108	15
Georgetown	5	3	2	105	23
Pennsylvania	6	2	2	97	40
Princeton	5	3	0	96	7
Lehigh	5	4	1	88	7
Harvard	5	4	1	84	23
Washington & Jefferson	5	5	0	79	10
Washington & Lee	5	5	0	74	10
Yale	5	3	2	70	32
Brown	5	3	2	71	13
Army	4	3	1	47	27
Navy	5	3	2	44	63
Chicago	3	3	0	27	7

"I AM WORKING EVERY DAY NOW"

How Father John's Medicine Brought Back My Health and Strength

(BY MISS MARGARET MURPHY)

"I have been taking Father John's Medicine for two years for lung and throat trouble and found great results from it. I had a cough for three weeks and nothing seemed to help it, but after taking Father John's Medicine I was better and my health was much improved and now I work every day." (Signed) Miss Margaret Murphy, 3 Clinton street, Albany, N. Y.

At this season of the year, those who tire easily, are run down, below normal weight, thin and pale, should take a pure and nourishing tonic flesh-builder, such as Father John's Medicine, because it is free from dangerous drugs and actually rebuilds wasted tissue. Many people gain weight steadily while taking it.—Adv.

COTTON MARKET RECOVERS LOSSES

Renewal of Aggressive Bull Support in the Early Trading—Crops Estimates Encouraging.

New York, Oct. 30.—The cotton market recovered nearly all of Thursday's losses during the early trading here yesterday on a renewal of aggressive bull support and active covering. The publication of private crop estimates in line with previous predictions of around 11,000,000 bales probably encouraged the advance, but the renewal of bullish activity was attributed more largely to a belief that the recent decline of about \$6.75 per bale had placed the market in a position where it was again likely to be influenced by old bull features and former prominent bull brokers were heavy buyers. January contracts sold up to 12.25 by the end of the morning, or about 32 points net higher and no less than \$1.00 per bale above Thursday's low level.

A WARNING TO BANKS.

Section Against Usury Violated, Says Comptroller.

Washington, Oct. 30.—Comptroller of the Currency Williams has sent to all national banks a circular calling attention to the oath, which each director signs when he assumes office, not to permit the bank to violate the national act, and pointing out particularly that part of the act which provides that a national bank may receive interest on its loan "at the rate allowed by the laws of the state, territory or district where the bank is located, and no more." The letter continues:

This office regrets to report that the sworn statement of condition of a great many national banks shows that section 5107, United States revenue statutes, against usury, has been grossly violated by these banks.

You are respectfully advised and admonished that this provision of the national bank act should be faithfully observed by all national banks, their officers and directors, in accordance with the solemn oaths taken by directors.

You are requested to read this letter at the next meeting of your board of directors, and to have it inscribed upon the minutes, and to send a copy of this letter to every member of your board who may not be present at such meeting, with the request that he promptly acknowledge its receipt to you. Within thirty days after your next board meeting and not later than Dec. 20, 1915, you are requested to send to this office letters from all members of your board who may not have been present at the meeting at which this letter is read, acknowledging the receipt by each absent director or a copy thereof, together with a certified extract from your minutes, showing that this letter has been read to your board and giving the names of the directors present at the meeting at which it is read.

Norwich's Outlook.

The election of Capt. Ira L. Reeves as president of Norwich university, the state military college, promises to open a new chapter of usefulness and consistent growth for that institution. Captain Reeves seems to be well fitted in every way for the important office. He is in the prime of manhood, with long years of service ahead. Though not a West Pointer, he looks all rules by sheer merit and rose from the ranks to a position as commissioned officer in the regular army. His field service was creditable, evidence of which was wounds received. Capt. Reeves has made a thorough study of the science of warfare, and is the author of several works on the subject. He has a very pleasing personality and unusual executive ability. Under his leadership, Norwich should move steadily forward to what the Germans call "the place in the sun."—Herald.

REDFIELD SOFTENS THE SEAMEN'S LAW

Master's Certification That Crew Fulfills Requirements as to Language Will Be Accepted.

Washington, Oct. 30.—A ruling on the language test required by the new seamen's law made yesterday by the department of commerce will minimize the rigidity of that provision, which has been much complained of by shipping interests. It orders customs collectors to make a reasonable examination if the master of a vessel certifies that his crew fulfills the requirements and that sufficient knowledge of language to insure safety is the only test to be required.

LEAGUE LEADERS NOT BEST SCORERS

In Both National and American League Were Poorer First Place—Frank Moran Nearer a Bout with Willard.

New York, Oct. 30.—The records made by the major league clubs in runs, hits, errors and men left on bases for the season just closed furnishes data for interesting study. In the National league, the Philadelphia club which won the pennant made next to the largest number of runs with the smallest total of hits. The Phillies also had fewer men left on bases than any other club and made next to the least number of errors. The Boston Braves were third in run making, seventh in hitting, first in number of stranded runners and made less errors than any of their rivals. St. Louis made the greatest number of runs; Cincinnati led in hits, Chicago in errors and Boston in runners left.

The Boston Red Sox, world's champions and American league pennant winners, were third in the run making in the junior league; first in total number of hits; kept their errors down next to the lowest total but had more runners marooned than any other club except Detroit. The Tigers, runner-up to the Red Sox, made more runs than any other American league combination; were second in hitting; fourth in errors and first in left on bases. The Chicago White Sox were second in run making; third in hits; third lowest in errors and second lowest in base runners stranded.

Frank Moran, through his decisive defeat of Jim Coffey, has crowded a bit nearer to a bout with Jess Willard. The title holder will agree to meet Moran in a ten round battle with or without decision is quite unlikely. Willard by no stretch of imagination can be termed a whirlwind fighter. In order to win on points or knockout inside ten rounds the conqueror of Johnson would have to travel at a pace far in excess of anything he has shown to date.

In a twenty or twenty-five round contest Willard would be in a position to wear down his opponent in the slow, deliberate manner characteristic of his fighting methods. Some idea of Moran's ability over a distance route can be gathered from the fact that he fought twenty rounds with Jack Johnson in Paris on July 4, 1914. Although he lost the decision on the points the same would have been true of Willard had his battle with Johnson in Havana last April been limited to a similar number of rounds.

Apparently the Pacific coast is developing another cinder path flyer in Frank Sloan, the youth who recently broke the American interscholastic record for the quarter mile by running that distance in 45.1 seconds. An idea of this schoolboy's speed can be gathered from the fact that although thousands of 440 yard dashes have been run in the past fifteen years the record has been broken but three times.

In 1901 C. Long set the time at 50.1.5 seconds where it remained until Ted Meredith cut it down to 48.4 seconds in 1912 while attending the Mercer academy. Three years later Sloan cut three-fifths of a second off Meredith's time and if he continues to improve as Ted did after graduating from school, the California lad will eventually rank with the great quarter milers of athletic history, including Wendell, Baker, Maxey, Long, Reidpath, Lon Myers, Burke, Moulton, Taylor, Downs and Meredith.

Tentative plans for a post-season football game between the teams of Everett (Mass.) high school and Central high school of Detroit are under consideration. Judging from the records of these two schoolboy elevens last season such a contest should produce play of a most interesting character. Both teams played remarkable football in 1914 and their work to date has been on a par with that of last year. Everett won all thirteen games during the 1914 season, running up a total of 600 points to opponents' zero. The defeat of the Oak Park (Ill.) high school team by a score of 80 to 0 was the feature of Everett's schedule.

Some baseball players achieve riches in the hall of fame and others have wrecked in the world's series. Jack Barry, however, is in a class by himself. All Jack does is to jump from one club to another as pennant chances wax and wane and collect an abnormal share of the post-season receipts. Since 1910 Barry has played in five world's series thereby enriching his bank roll to the extent of \$14,821.15. This comes close to hitting 1,000 in the financial league.

When it comes to a battle between pugilistic promoters and old Noah Webster, the latter is always outclassed. In a recent bid for publicity the English language was counted out as follows: "Next Saturday evening at the Crystal A. C. (5) three star ten ten round bouts in the star ten (10) of the evening John Hine, who has not boxed in a couple of months will swap punches with that tough light heavy-weight Tabasco Bill, in the second ten of the evening. Sailor Samson will meet Joe Diney, Diney. This bout promises to be a sure enough slugger. The last bout of the evening will bring together Terry Mike who has beaten everything that he has met in his last ten bouts, will meet that tough welterweight Jim Pooke. Pooke is training like a Trojan for this bout as it will mean a bout with the present champion, this card ought to satisfy any boxing fan, thanking you in advance, I remain."
